Regional Center
for Cancer Services

Mission Statement

Our Mission is to provide a fully comprehensive cancer program that offers state of the art medical, radiological, and surgical treatment as well as pain management, nutritional, psychological and spiritual support. This is provided in a caring, compassionate environment that allows patients and their families to live positively and productively with cancer. The program respects the cultural diversities of patients and their families, as well as their individual desires and approaches to any and all aspects of their care.

Our Cancer Healthcare Team members include Outpatient and Inpatient Oncology Care Coordinators. Their primary role is to be a support person and resource to you and your family. They work in partnership with you, your family, and your physicians to prevent fragmentation of care and services. They can help you cope with the complex emotional, financial, and practical problems that can occur.

The Cancer Care Coordinators provide:

R

**Referrals to our Cancer Resource Team
Referrals to available clinical trials

E

**Educational resources available to encourage your participation in the treatment decision-making process*

S

**Support person and advocate for you and your family*

O

**Ongoing communications and contact with you, your family and members of your Oncology Healthcare Team*

U

**Understanding and reassurance*

R

**Referrals to financial, legal, and counseling services
Referrals to spiritual and religious counselors and groups

C

**Compassion*

E

**Encouragement*

S

**Support Groups available to help you and your family*
